TABLE IV.

ACTIVITIES PROGRAM RESULTS

Measured by pupil understanding of things common in American life.

Terms were taken from vocabularies used in activities connected with the study of railroads, solar system, and water. The percentages given are an average of the correct responses on the three vocabulary lists used. The schools are the five graded schools in this supervisory district and the average of a majority of the rural schools.

School	Gr. 3	Gr. 4	Gr. 5	Gr. 6	Gr. 7	Gr. 8	Remarks
No. 1	13%	25%	32%	33%	40%	54%	Uses many large units.
No. 2	11	12	22	36	45	45	Less activities than No. 1
No. 3	10	16	29	31	41	42	About same activities as No. 2
No. 4	11	11	12	23	27	42	Less activities than No. 3
No. 5	8	16	21	28	25	31	Least activities of all.
Average (approx.) Rural Schools	11%	16%	23%	30%	36%	43%	
Average	13%	15%	23%	34%	36%	47%	Nine one-room schools.

OBSERVATIONS REGARDING THE TABLES

Table I shows the school costs for the year including the fact that the per pupil cost has again been kept low. The higher costs for Haiti, Mill Village and Post Schools are due to transportation of pupils and repairs made to the buildings.

Table II shows the enrollment for the past five years compared with the present year. You will note the large decrease in enrollment at Center Rutland and the present tendency to increase in enrollment at that school. As the enrollment at that school approaches one hundred pupils again another teacher should be added. The three rooms operated are practically filled to capacity at present.

Table III shows that the achievement of the pupils as measured by achievement tests has steadily improved, especially since the introduction of the present school practices and techniques.

Table IV is an average of the results of three vocabulary lists on railroads, water, and the solar system made up from terms used in activities projects carried on in some schoolroom in this supervisory district. The results indicate quite clearly that the schools doing more activities work give to their pupils more vivid understanding of the affairs of nature and life. Your schools will probably increase the amount of activities carried on, including necessary field trips to observe things in nature and in industry as they really are in life. The development of an active spirit of democracy and an understanding of the results of the democratic way of life can be illustrated to the pupils better thru an activities program than in any way of which I am aware.

REPAIRS

The improvements made at Cheney Hill and at Dyer School during the year are quite extensive and much appreciated. Dyer School has an added basement, classroom, water system with flush toilets, and new heating system. These bring the building again up to a high standard of usa-

bility. The pupil achievement will undoubtedly reflect the benefits of two teachers with this group of children together with the benefit of room in which to do school work in a modern way under modern conditions. This work is not completely paid for, \$350.00 remaining to be paid on the heating system. A small amount of minor equipment must be added.

At Cheney Hill the repair of the woodshed, connecting same to the school building, was a much needed improvement. The interior paint adds to the attractiveness of the room. This school, if it is to be left at its present site should have additional playground and running water as well as an addition to the building which could serve as a stage, work room and library with possibly a kitchenette for preparing warm lunches and for use at community gatherings.

Haiti School has been badly overcrowded for some years. Even after transferring several children to Center Rutland there is not adequate room in the building for carrying on a modern school room program with the remainder. A rather complete renovation of the building is needed.

The interior of the school at Mill Village is greatly in need of a coat of paint.

Curtains are needed at Center Rutland and the grounds in front of Center Rutland building should be improved by grading with soil and establishing a grass plot the full length of the building. The Center Rutland Parent-Teacher Association made an outstanding contribution when they added the very modern kitchen and kitchen equipment, including gas range and gas water heater at the Center Rutland School.

Not all of these matters can be cared for in one year, but the Board should decide which are most needed and take care of the most pressing needs first. I would suggest Haiti School as being in the greatest present need of renovation, with Cheney Hill School a close second.

Facilities for visual instruction thru moving pictures should be provided. All the Parent-Teacher Associations co-operating with the School Board could probably raise the required amount of money in a short time. This method has been used in many places.

I wish to express my appreciation of the efforts of the teachers to improve the instruction, for it is they in the final analysis who make the schools function well or poorly; of the willingness of the School Directors to make building improvements; and of the Parent-Teacher Associations in providing the means and the morale for better school conditions in general.

Respectfully submitted,
WINN L. TAPLIN,
Superintendent of Schools.

HEALTH OFFICER'S REPORT

During the year the following communicable diseases
were reported:

Measles	15
Chicken Pox	3
Whooping Cough	2

Several water samples were taken and sent to Burlington for testing. Many complaints of nuisances were received and investigated and in most cases good co-operation was secured. No communicable diseases have been reported since August 3.

DONALD V. RUSSELL,
Health Officer.

OLD AGE ASSISTANCE

Payments of Old Age Assistance to persons applying from your town amounted to \$2,847.50 during the year January 1, 1939 to December 31, 1939. The number of recipients in December 1939 was 14.

The resources of this department and its ability to make payments are determined by the state appropriation which is matched by federal funds. During recent months it has not been possible to grant assistance to all new applicants who have been found eligible after investigation. The co-operation of overseers in extending temporary aid and supplementary medical services has been very helpful.

The administrative expenses of the department during the year was 3.9%.

The advice and council of local officials and interested people are gratefully acknowledged by this department and its field staff.

W. ARTHUR SIMPSON, Director.

The Town paid the State from poll tax receipts \$1,496.25.

Respectfully submitted,

ANDREW L. ORZEL, Investigator.

WARNING

The legal voters of the Town of Rutland and the Town of Rutland School District are hereby warned to meet at the Town Hall in Center Rutland on Tuesday, March 5, 1940 at 10 o'clock A. M. to act on the following matters, namely:

1. To see if the Town will empower and authorize the Selectmen to appoint one or two Road Commissioners.
2. To choose all necessary officers required by law.
3. To see if the Town will vote to raise money by tax or otherwise to pay current expenses and indebtedness of the Town and State, School, Highway and County Taxes. If by tax, how much?
4. To see to whom and when the several taxes shall be due and payable.
5. To see if the Town will appropriate two hundred dollars to secure the use of the Rutland Free Library to inhabitants of the Town.
6. To see if the Town will authorize the Selectmen to borrow money for the temporary use of the Town.
7. To see if license for the sale of malt and vinuous beverages shall be granted in this Town.
8. To see if spirituous liquors shall be sold in this Town.
9. Shall baseball be allowed on Sunday in this Town?
10. Shall moving pictures be allowed on Sunday in this Town?
11. Shall lectures or concerts be allowed on Sunday in this Town?
12. Will the Town authorize the Auditors of the Town to employ the services of an accountant from the office of the auditor of accounts as provided by No. 55 of the Acts of 1937 to conduct and audit of the accounts of the Town?
13. To see if the Town wishes to take advantage of the extra \$25.00 per mile granted to Towns by the State, provided the Town spends \$25.00 per mile of their own money on Town roads outside of winter maintenance. This applies to No. 101 of the Acts of 1937.
14. To see if the Town will authorize the Selectmen
 - (a) To arrange for proper recognition of Vermont's Birthday Anniversary during the Town Meeting on March 1, 1941.
 - (b) To appoint at once a committee to co-operate throughout the year with other State and Local committees in recognition and celebration of 1941 as Vermont's Sesqui-centennial year.
15. Shall the Town consent to the transfer of certain lands recently purchased by the Evergreen Cemetery Association from the Vermont Marble Company now located in the Town of Rutland to the City of Rutland, providing a Bill to make such transfer is introduced in the 1941 Session of the General Assembly.
16. The question of Town officers, salaries, raising taxes, what provision the Town will make for the higher education of the scholars of the Town and any other article unable to be voted on by the Australian Ballot will be taken up at 1:30 P. M. by acclamation from the floor as has been our custom in the past.
17. To transact any other necessary, legal and proper business.
